# Edmonton City Dairy

Edmonton, Alberta,  
Canada

RETURN IN 10 DAYS TO  
THEO. E. SKAGEN,

Alberta, Canada.

*To Shareholders, Employees, Patrons and Friends:*

It is with a great deal of pleasure that we present this souvenir of the Edmonton City Dairy. In doing this, we wish to convey to all of our employees, patrons, business associates and customers, our heart-felt appreciation of the co-operation of each with us in establishing during the past seven years our business in the City of Edmonton. The growth of the business has been gradual as the following page will show, and has also been in proportion to the growth of Edmonton. We have the greatest faith in the future of Edmonton and the development of the dairy industry throughout Central and Northern Alberta. We look forward to a still further development of our business and wish to thank those interested in the dairy business with us for their liberal support and earnestly solicit their further co-operation.
